SAKU KARTTUNEN ICT- ENGINEER

// EXPERIENCE

Geego Kids, Hämeenlinna, 2020:

Video- and photographer as well as video editor for the Geego Kids app and for the brand's social media.

Freelance Media Specialist, Riihimäki, 2019:

In 2019 i set up my own freelance company for Media services such as videographing and graphic design. I worked for small to medium sized businesses during and after my studies at Hyria.

Finnish Defence Forces, Parola, 2020:

I spent my mandatory military service at the Parola's Armoured Brigade as a driver for trucks and vans. From my year there I recieved the C as well as C1e driver's licences and the professional qualifications to work as a logistic's driver.

// EDUCATION

Information and Communications Technologies Engineer, HAMK University, Riihimäki

I started my studies in 2021 with the intent of profiling myself towards the career as a software / game -developer

Media Specialist, Hyria, Riihimäki

After graduating in 2020 I recieved a scholarship for an "entrepreneurial mind" for my many gigs as a freelancer during my media studies
